Slayers of Rosenthal Have Not Been Caught—Attorney Balked

New York, July 27.—The unexpected breakdown and confession of one of the men under arrest in connection with the murder of Gambler Herman Rosenthal failed today to materialize. The murderers still are at large and District Attorney Whitman is balked so far in his efforts to prosecute them.

Deputy Commissioner Dougherty says developments in the last few days have been important, but does not expect any more arrests soon. Jack Sullivan, whose arrest was one of the sensational features of the investigation, will be given a chance to tell his story to Deputy Dougherty.

Boston, July 27.—Many of the leaders in the Progressive movement and supporters of Colonel Roosevelt met here today for the first convention in Massachusetts of the third party. The leaders planned to select a state delegation to the Chicago convention on August 2 and also 18 presidential electors. The matter of choosing candidates for state office, congress and the legislature will be left until later.

It was expected these would be chosen by a primary conducted by the party as under the law the state cannot recognize this organization in the joint primaries on September 24. All nominations by the Roosevelt party in Massachusetts will be by petition.

Frederick O. Fosdick of Pittsburgh, one of the Massachusetts delegates to the Chicago convention, was selected as temporary chairman of the convention.

# UNIONISTS JUBILANT

English Aristocracy Expects to Regain Lost Power

Woodstock, England, July 2.—The Unionist party, which sees in the recent differences of opinion between the Liberal and Labor forces and the national loss of strength to the government as a result of home rule, establishment and other reform measures an opportunity of regaining power, convened in the court yard of Blenheim palace today. Three thousand delegates representing the Unionist organization and the members of the party were present. The Unionists, which usually support the Liberals, sent delegates here. The representatives of the Primrose league, the political association of the aristocracy, and other members of the party had an opportunity of conferring with the veterans.

Bonar Law, leader of the opposition, Sir Edward Carson, the Ulster leader, and F. E. Smith, another of the keen fighters of the party, delivered addresses which contained lots of fire.

The meeting closed with sectional conferences to enable the organizers to collect new ideas for the general election, which Unionists believe cannot be long delayed.

# Johnson-Flynn at Ogden Theater

An event of more than ordinary interest is scheduled for Ogden theater on July 29-30-31, when the first authentic copyright pictures of the Flynn-Johnson fight will be shown at the Ogden theater. These pictures are now making a phenomenal run in all the big cities of the land and being shown to capacity business everywhere. The Press of the Country pronounces them to be the most perfect fight pictures ever exhibited. At the Tabor Grand theater in Denver, these pictures have taken the record of the house, being shown for thirty-five consecutive performances to enormous crowds.

Those who witnessed the great fight itself pronounce them perfect in every detail, and fully as exciting as the great event at Las Vegas on July 4th last. Every move of the big fighters is faithfully depicted on the canvas as these giants of the ring battle for supremacy. For fifteen long rounds the battle goes nip and tuck and then the final knockout is clearly shown. In addition to the fight itself, a series of most entertaining pictures are shown of scenes in Las Vegas and in the training quarters of the fighters before the battle.

The pictures are clean and chaste throughout, there being not one objectionable feature shown. The management in catering to ladies in the audience has shown commendable work in eliminating every objectionable feature. Monday, Tuesday and Wednesday afternoon and night, July 29, 30 and 31, at night in addition to regular bill.

# ALARM WHISTLE IS NOW BLOWN

Escape of Inmates of Industrial School Made Known by Blowing of Siren—Many Enlisted in Chase After Fugitive by Standing Officer of Ten Dollar Reward.

When at 9 o'clock this morning, the alarm whistle of the State Industrial school gave a long sharp blast, the people of that section knew that some one had escaped from the school.

Recently the board of trustees, under the suggestion of Superintendent Gowan, have been paying \$10 for the capture of a runaway, and to advise the people of the immediate vicinity that some one has escaped, a steam whistle is blown. The reward for the capture of the runaway has been promptly paid, as a result of which all people hearing the siren do their best to discover the fugitive. Prior to the time of the inauguration of this plan, considerable difficulty was encountered in getting the people to aid in catching boys or girls who got away.

The one who escaped this morning is Francis Peterson of Logan, 18 years of age. He wears the school uniform and is of rather light complexion, of medium height and weighing about 140 pounds. He has been considered a trustworthy young man and of late has been given considerable liberty. This morning he went to work with the other boys, gathering cherries, but suddenly disappeared and when last seen was going north.

It is expected by the officers of the school that he will endeavor to reach his home in Logan.

Descriptions have been sent in various directions and officers of cities and counties north and south of the school have been advised of his escape.

# FLOTSAM OF THE RACING SEASON

The close of the racing season at Lagoon has begun to make itself felt in Ogden police circles, as it did last year, a number of arrests having been made in which the culprits were touts, horse handlers and track followers of all kinds.

Three unfortunates were arraigned in police court this morning on charges of trespass and vagrancy. They gave the names of Henry Smith, Levi Welch and John Johnson and pleaded not guilty.

Smith had lost his boss, he said, and was troubled with the fear that the car of horses to which he was attached as an exercise left for Butte. Welch was willing to admit his presence in a horse car but asserted his innocence of having done anything worse than entertain a desire to get out of Ogden.

Johnson is a diminutive colored man who had also lost his employer in some way and was anxious to get away in order to overtake the horse train now enroute to Butte.

Judge Reeder finally decided that if the men would get out of town at the first opportunity they might be allowed their freedom. This they readily consented to do and hurried away.

# NEED TEAMS TO HAUL ROCK

The county commissioners desire to get more teams hauling crushed rock from the crusher in Ogden canyon to the road districts of Wilson and Riverdale, where macadam road is being built. Chairman Madison states that fifty teams could be used advantageously in the two districts.

The force of teams at work at the present time can supply only enough crushed rock each day to keep one section at work, which is being used at Wilson.

There are a few more teams at work today than there have been in the past week, but the contractor would like to have twenty or twenty-five more. The road is good for hauling and it is down hill all the way, except in one or two places where there are dugways of easy grade. A single team can haul a large load.
